

Pre-finished Door and Trim Packages

What separates our door and trim packs from the others is our attention to detail. Each door that comes in is broken down and sanded smooth so that no ripples in the wood remain before finishing. The same is done for the trim - each piece is sanded until smooth and ready for finishing.

With a large heated spray booth we can apply most any finish to your trim package. All doors and trim are sealed and then finished with three coats of a clear non-yellowing lacquer.

Once dry, the doors are re-hung and ready for shipping, while the trim is bundled together as well.

Why Choose Us?

- Have your trim pack delivered pre-finished!
- More consistent finish
- We do interior, exterior, wood, metal and paint grade doors
- Custom colored caulking to match your job!
